Payrolling

We provide a cost effective, client/employee-centric technology solution for companies who have already identified the ideal candidate for a contract role within their company. Our payroll solution minimizes liability from possible misclassification, while leveraging technology to optimize the efficiency to onboard a resource quickly.

Clients benefit from:

- Management of all on-boarding activities and reduction of administrative burdens
- Ability to quickly on-board resources who are proven assets
- Mitigated risk via proper classification and co-employment
- Ensured continuity and uniform back office functions
- Utilization of a SaaS Time & Expense Reporting System with client approvals
- Electronic invoicing and payment options
- Customized and standard reporting capabilities
- Federal, state and local employment law compliance
- Diversity and small business spend as a MWBE supplier
